

Light Positive Receives 2012 Sectional Award from the Illuminating Engineering Society Boston

Lighting Design Firm Honored for Private Residential Lighting Project

PR Newswire

BOSTON, May 24, 2012

BOSTON, May 24, 2012 /PRNewswire/ -- Light Positive, a Boston area lighting design firm, announced today that it has received a Sectional Award from the Boston Section of the Illuminating Engineering Society for the 2012 Illumination Awards program.

The award recognizes the firm's lighting of "A Playful Music Room" in a private residence. The project required Light Positive to provide ample illumination for reading, source a dramatic decorative fixture and accentuate a three-dimensional art feature. Visit www.lightpositive.com/news to view full release including photography of this winning entry.

"The team at Light Positive is thrilled to be receiving this honor from the IES Boston," said Nancy Goldstein, principal at Light Positive. "We would like to thank Walter Jacob Architects, of Marblehead, Mass., for choosing to partner with us on this project. It was a challenging assignment that met its goals and culminated in an exceptional result for our client."

The IES Illumination Awards program provides a unique opportunity for public recognition of professionalism, ingenuity, and originality in lighting design based upon the individual merit of each entry.
